Education

University School of Automation and Robotics, GGSIPU
B.Tech in Artificial Intelligence and Machine Learning, CGPA: 8.0

Delhi, India
2022 – 2026

Technical Skills

Frontend: React, React Native, Next.js, Tailwind CSS, Vite, HTML5, CSS3, Streamlit, JavaScript

Backend and Database: Node.js, Express.js, Flask, FastAPI, Firebase, Python, Golang, Supabase, SQLite, MySQL

DevOps & Tools: Git, GitHub, Docker, Podman, Vercel, Render, Expo, Postman, REST APIs

Projects

ProCode

Live — GitHub

Real-time online coding assessment platform

- Designed a web app where recruiters can conduct live coding tests with code execution.
- Developed backend in **Golang** with Dockerized execution using **Judge0 API**.
- Built reactive frontend with **React + Vite**, deployed on Vercel.
- Enables real-time evaluation and discussion between interviewer and candidate.

EcoCircle

GitHub — App Release

Cross-platform mobile app for environmental awareness (built with React Native + Expo)

- Developed a full-featured **Android app** using **React Native (Expo)** with Supabase as backend.
- Implemented secure authentication with **Supabase Auth** (email/password, persistent sessions).
- Integrated **Google Gemini AI** for automated post moderation and eco-content validation.
- Designed reusable, high-performance UI with **FlashList, Gorhom Bottom Sheet, and Reanimated**.
- Released production-ready APK through GitHub Releases for public use.

CloudTeach

Live — GitHub

AI-powered tutor for cloud computing concepts

- Built an e-learning tool using **Streamlit + Gemini API**, providing personalized guidance.
- Integrated **Firebase Auth** for user-specific learning journeys.
- Hosted on Streamlit Cloud with modular backend APIs.
- Helps beginners understand core cloud topics via AI-driven interactivity.

RailMadad

GitHub

AI-driven railway grievance redressal system

- Developed an AI chatbot to classify and escalate complaints automatically.
- Built backend on **Flask + SQLite**, connected with Gemini API for NLP support.
- Frontend created using **Next.js** with intuitive dashboards for admin/staff.
- Enhanced complaint response time through automation.

Experience

MakeHeadshot

Remote

Software Development Intern

Jun 2025 – Present

- Building AI-driven SaaS product for automated professional headshot generation.
- Implementing **Next.js + Tailwind CSS** features including landing pages, dashboards.
- Working closely with backend developers to integrate REST APIs and improve workflow.
- Optimized frontend performance, reducing load times by 30% to enhance user experience.

University Research Project

Delhi, India

Research Intern (Web Developer)

Jun 2024 – Jul 2024

- Developed a role-based **real-estate listing web portal** with integrated chat feature.
- Built functionality for property search, saved listings, and admin management.
- Tech Stack: **PHP, MySQL, HTML, CSS, JavaScript**.
